

## Google Sites

Google Sites is the easiest way to make information accessible to people who need quick, up-to-date access. People can work together on a site to add file attachments, information from other Google applications (like Google Docs, Google Calendar, YouTube and Picasa), and new free-form content. Creating a site together is as easy as editing a document, and you always control who has access, whether it's just yourself, your team, or your whole organization. You can even publish sites to the world. The Google Sites web application is accessible from any Internet-connected computer.

## Quick Facts

### Single-click page creation

Creating a new page for your Google Site just takes the click of a button.

### No HTML required

Creating a Google Site is as easy as editing a document, which means there's no markup language for you to learn—just get started.

### Make it your own

Our customization options let you give your Google Site your own look and feel.

### Get started with templates

We offer a growing list of page types (web page, announcements, file cabinet) to help you get started with your Google Sites pages.

### Upload files and attachments

Use the file cabinet to upload files up to 10MB in size. Each Google Apps account receives at least 10GB of storage in Google Sites. Google Apps Premier and Education editions get an additional 500MB for each user account.

### Embed rich content

Google Sites is integrated with other Google products, so you can insert videos, docs, spreadsheets, presentations, photo slide shows, and calendars directly onto your Google Sites pages.

### Work together and share

Our permission settings let you designate owners, viewers and collaborators (meaning they can edit pages) for your site. And you can make your Google Sites available to just a few people, your entire organization or the world.

### Search with Google

You can search across Google Sites pages and content using powerful Google search technology. You'll find specific pages and documents instantly, the same way you would on Google.com.

## What's in Google Apps?

Google Apps offers dozens of communication and collaboration tools for any size business. Highlights include:

### Gmail

25GB of storage per user

Browser-based user interface

Secure, centralized management

### Google Docs

## What if I have more questions?

Agosto has extensive information about Google Apps and our Cloud services on our website at [www.agosto.com/cloud](http://www.agosto.com/cloud)

You can also reach us at [sales@agosto.com](mailto:sales@agosto.com) or 612-605-3520.

## Who is Agosto?

We're one of the nation's oldest, most progressive and fastest-growing cloud and Google Apps consulting firms. An early member in the Google Apps resource network, we're also singled-out by MSP-mentor 100, a distinguished research report that identifies the world's most progressive managed service providers.

We served on Google's Customer Advisory Board in 2008 and joined its Partner Advisory Board in 2009. As one of only 12 partners to sit on the Board, we're one step ahead of nearly any other Google Apps integration company.
