

Google Start Page

The Start Page lets you create a unique, dynamic place to preview your Gmail inbox, your Google Docs files and your Google Calendar; collect relevant information from your organization; and search the web. You can customize the layout and content, choosing from thousands of handy Google gadgets.

Google Search Powered by Google

Quick Facts

Central access point

Create a place for users to preview their inboxes and calendars, access relevant content from your organization, and search the web.

Custom look and layout

Match the look and feel of your organization or business with our what-you-see-is-what-you-get interface, which allows you to easily brand your own Start Page.

Custom content

Choose from Google's broad selection of gadgets for your organization's page or create your own gadgets. After users log in, they can further personalize the Start Page so it's just right by adding, removing, customizing and rearranging gadgets.

Create your own gadgets

Create custom gadgets that offer dynamic content specifically geared for your users. With the Google Gadgets API, you can stream custom content to your users, provide them quick access to tools like currency converters or calculators, and much more.

Search tools

Users can easily search across Google.com to quickly find what they need, right from the Start Page.

Supported browsers

Windows Internet Explorer, Mozilla Firefox, Safari, Netscape, Mozilla, and Opera.

What's in Google Apps?

Google Apps offers dozens of communication and collaboration tools for any size business. Highlights include:

Gmail

What if I have more questions?

Agosto has extensive information about Google Apps and our Cloud services on our website at www.agosto.com/cloud

You can also reach us at sales@agosto.com or 612-605-3520.

Who is Agosto?

We're one of the nation's oldest, most progressive and fastest-growing cloud and Google Apps consulting firms. An early member in the Google Apps resource network, we're also singled-out by MSP-mentor 100, a distinguished research report that identifies the world's most progressive managed service providers.

We served on Google's Customer Advisory Board in 2008 and joined its Partner Advisory Board in 2009. As one of only 12 partners to sit on the Board, we're one step ahead of nearly any other Google Apps integration company.
