

# ADVANCED SERVICES

Agosto is a Tier 1 Google Cloud Premier Partner and cloud product development company.

We partner with companies looking for a fresh perspective to work smarter with Google Cloud.

Agosto believes that good work stems from good partnerships. From the start, we make sure we truly understand your business goals, so we can see where and how Google technology can give you the advantage. This philosophy is baked into every one of our services.

Ci

Cloud Infrastructure

## Ci CLOUD INFRASTRUCTURE

Whether you are managing legacy infrastructure or running containerized applications, Agosto customizes services based on where you are in your journey to the cloud. Our methodology removes risk and accelerates your business by implementing Google Cloud Platform's advanced cloud services with high consideration for availability, security, and automation.

- Cloud Assessment
- Workshops
- Meaningful Experiment
- Deployment SOWs

IoT

Internet of Things

## IoT INTERNET OF THINGS

Quickly incubate or scale Internet of Things (IoT) products with minimal time and resource investment. Our IoT rapid prototyping and replatforming services are ideal for organizations that may not have all the internal resources or bandwidth available to bring a new product to market, but still want to showcase an idea or develop an early proof to gain traction for project approval.

- CB Workshop
- Rapid Prototype
- Customer Pilot
- MVP Spec

MI

Machine Learning

## Ci CLOUD ANALYTICS & MACHINE LEARNING

Gain unique insights, identify unseen and emerging patterns, and automate human tasks at scale. Our Machine Learning services are ideal for companies with an interest in developing an intelligent application or algorithms that leverage Machine Learning, but are unsure of feasibility.

- ML as a Service
- Custom ML
- ML Data Engineering

Ad

App Development

## Ad APP DEVELOPMENT

Bring your vision to life or reconfigure existing products in the cloud. Our cloud product development services take a consultative role to help when and where you need it, from engineering to product lifecycle management to tech support, with infinite scalability.

- Analysis and Solution Definition
- Product Requirements Document (PRD)
- Application Architecture
- MVP, AppEngine or Mobile Development
- Production Launch
- Feature and System Iterations

# THE AGOSTO ADVANTAGE

We don't take our role as your technology partner and trusted advisors lightly.

## FOCUS

We are a pure play Google partner. Which means we eat, drink, and breathe Google technology every single day. Our entire team is solely devoted to Google and its products, with the knowledge and certifications to match.

## TEAM

Our bench runs deep with brilliant account managers, analysts, developers, architects, and subject matter experts that take care of the scope, the grind, and the crafting of your technical solutions.

## EXPERIENCE

We have been helping clients pioneer new technologies for more than 10 years. As one of only a handful of Tier 1 Premier Partners located in North America, we've received multiple awards for our work with Google Cloud.

**"We had a great opportunity, but didn't have a solution in hand to bring it to market. We knew what we wanted to do, and had the right skill sets in-house, but needed to quickly get a scalable cloud that could ingest and make sense of the data. That's where Agosto came in."**
